SUMMARY

Computer Science (Interactive Media) undergraduate with a Diploma in Computer Science from Universiti Teknikal Malaysia Melaka (UTeM). Passionate about designing intuitive, user-centred digital experiences through UX research, interface design, and interactive media. Experienced in developing high-fidelity prototypes, conducting user research, and translating ideas into engaging digital solutions using Figma and Adobe Creative Suite. Seeking a UI/UX Design Internship to contribute creativity, problem-solving, and user-focused design thinking in a collaborative environment.

EDUCATION

Mar 2026 - Present — *Universiti Teknikal Malaysia Melaka (UTeM)* — Melaka
Bachelor of Computer Science (Honours), Interactive Media
Relevant Coursework: Human Computer Interaction, Digital Imaging and Multimedia, Motion Graphics, Interactive Computer Graphics, Virtual Reality

Oct 2023 – Mar 2026 — *Universiti Teknikal Malaysia Melaka (UTeM)* — Melaka
Diploma in Computer Science
CGPA**:** 3.47 /4.0 MUET**:** Band 4.0 Dean's List (Semester 3, 4, 5)
Relevant Coursework: Object-Oriented Programming, Software Engineering, Data Structures & Algorithms, Web Application Development, Human Computer Interaction

EXPERIENCE

Jul 2025 – Sep 2025 — *Destina Asia (Businessworld)* — Shah Alam
Media & Content Intern
- Produced visual content for websites and social media using WordPress and Adobe Creative Suite.
- Designed digital assets and user-focused visual content for promotional campaigns.
- Covered corporate events through photography and videography while creating engaging visual content.
- Collaborated with the media team to support digital branding and content production.

AWARDS

2026 — **1st Place – FIGMAXPERIENCE UI/UX Competition, FICTS UTeM**
Designed and prototyped an innovative mobile application interface within a time-constrained UI/UX competition using Figma.

2024 - 2025 — **Dean's List Award**
Received Dean's List honours for outstanding academic achievement in three consecutive semesters of the Diploma in Computer Science.

CERTIFICATIONS

2025 — **Google Cloud Computing Foundations, Google Cloud Skills Boost**
Completed foundational training in cloud computing, networking, security, data, machine learning, and AI using Google Cloud services.

2025 — **Introduction to Power BI, DataCamp**
Learned fundamentals of Microsoft Power BI, including data visualization, dashboard creation, data modeling, interactive report development.

2024 — **MATLAB Onramp, MathWorks**
Learned symbolic mathematics in MATLAB, including symbolic expressions, equation solving, integration, and mathematical analysis.

FEATURED PROJECTS

April 2026 — **HopOn - Campus Bus Tracking Mobile App Prototype | Figmaxperience Challenge**
- Conducted user research to identify transportation challenges faced by university students.
- Developed user personas, user flows, and wireframes to improve the commuting experience.
- Designed a high-fidelity interactive prototype using Figma based on user-centred design principles.
- Created a complete UI/UX case study from problem identification to prototype validation.
- Awarded **First Place** in the FIGMAXPERIENCE UI/UX Competition.

Oct 2025 - Feb 2026 — **Rentify – Clothing Rental Web Platform | Diploma Final Year Project**
- Designed the end-to-end user experience, user interface, and responsive layouts for a clothing rental web platform.
- Developed a responsive website using HTML, CSS, JavaScript, PHP, and MySQL.
- Applied usability principles to simplify the booking process and improve user experience.
- Implemented front-end and back-end functionalities independently as a diploma final year project.

May 2026 — **100PLUS Integrated Advertising Campaign | Digital Imaging Exhibition**
- Designed a multi-platform advertising campaign across billboard, bus stop lightbox, and Instagram.
- Produced brand-consistent visuals using Adobe Photoshop and Generative AI.
- Applied typography, layout, and visual hierarchy principles for effective communication.

LEADERSHIP

Nov 2024 – June 2025 — **Committee Member | Diplomate Club**
- Supported the planning and execution of student engagement programmes.
- Collaborated with committee members to organise faculty activities and interactive events.
- Designed activity materials and managed programme checkpoints.

SKILLS

UX Design
- UX Research
- User Personas
- User Flow
- Wireframing
- Prototyping
- Design Thinking

Design Tools
- Figma
- Adobe Photoshop
- Adobe Illustrator
- Adobe Premiere Pro
- Adobe After Effects
- Canva

Front-end
- HTML5
- CSS3
- JavaScript

Development
- PHP
- MySQL
- WordPress
